Defend the Projects Committee
is calling for a mass mobilization to:

• Stop the demolition of Fulton and Elliott-Chelsea Houses

• Stop the Privatization of FEC, De Hostos Houses, Howard Houses and all of public housing

• Give us all the repairs we need and keep us under Section 9

• Fight in the name of Christine Burke

Join us on

December 5th at 3:30pm

Meet us outside Gracie Mansion (E88th St and East End Ave)

We need all housing/ tenants/community groups, leftist organizations and unions to endorse/ support and help build for this day.

Bring this flyer to your union hall or workplace. The displacement of black, Hispanic, and Asian working class families in the projects will destabilize the working class as a whole. Or bring this flyer to your development or private building. What happens to us will happen to you. We have to have each others back as the politicians are screwing us all!

Mamdani wants to attack our home, let's bring the fight to his!
